Talking Bibles in Multiple Languages

Dear Sisters,
Greetings in the Lord.

You may already be familiar with “Talking Bibles” that are translated and recorded in multiple languages and are helpful in reaching people whose language is not available in Bibles, who are blind, or who are unable to read in their first language. It could be used in a group class or religious celebration where hearing the Word is important.

This group has been recording Bibles in a variety of languages for many years. I purchased one of these Bibles in an Eritrean language and the interpretation and language was good according to the Eritrean gentleman who was visiting in my office—actually he was thrilled to hear it!

If you are interested in learning more, the webpage about the group doing this ministry and the webpage of the group that handles sales are below:

- Here is the Webpage: [Home | Talking Bibles International](#)
- Here is a list of the languages and information on how to order one: [The Talking Bible – TB2U](#)

May God bless you,
Sister Mary Louise, DC
